Angelo

OVERVIEW

Hey, thank you for purchasing Angelo. If you have any questions, please don't hesitate to contact me: meydjer@meydjer.com.

This is a classic and elegant template initially inspired in the painting The Creation of Adam by Michelangelo.

I hope you like.

Created on: June 28, 2011.

- **portfolio_3col.html** - portfolio page with 3 columns;
- **portfolio_item.html** - portfolio item view page;
- **contact.html** - contact page.

PORTFOLIO

To customize your portfolio pages you have to keep the same name at the #ul-portfolio-categories links and the #portfolio "li"s.

For example, if you add a link called "Lorem Ipsum", you have to add a class called "lorem-ipsum" to you "li".

Take a look at the example on the right side.

```html
▼<ul class="ul-portfolio-categories">
  ▼<li class="selected">
    <a href="#" data-value="all">All</a>
  </li>
  ▼<li>
    <a href="#">Architecture</a>
  </li>
  ▼<li>
    <a href="#">Music</a>
  </li>
  ▼<li>
    <a href="#">Paintings</a>
  </li>
  ▼<li>
    <a href="#">Poetry</a>
  </li>
  ▼<li>
    <a href="#">Sculptures</a>
  </li>
  </ul>
  <div class="divider"></div>
  <div class="clearfix"></div>
  <!--double line divider-->
</section>
<!--END #portfolio-categories-->
▼<section id="portfolio" class="one_col">
  ▼<ul>
    ▶<li class="sculptures">…</li>
    ▶<li class="paintings">…</li>
    ▶<li class="architecture">…</li>

6. YOUR STYLES

NOTE: If you would like to edit a specific section of the site, simply find the appropriate label in the CSS file, and then search for the appropriate style that needs to be edited. There are still some css files not noted above. I did not include them because you don't have to modify them. The "style.css" are enough to make the changes you need.

You can change the colors of the buttons only via CSS. Just change the color value for one of your choice (default is #858d63) on the lines #558 (normal buttons) and #586 (big buttons). See examples in the next page.

Normal button:

```
557  #main .button, .main-form .input-submit {
558    background: #858d63 url(../images/bg-button-texture.png) center top;
559    border: 1px solid #6a6f52;
560    border-radius: 4px;
561      -webkit-border-radius: 4px;
562      -moz-border-radius: 4px;
563    box-shadow:

OVERVIEW – PSD – HTML – CSS – JS – CREDITS

The date bookmark is a SVG file (images/date-bookmark.svg), so you can easily edit the color by changing the fill value (default is #858d63) of the path with the "date-bookmark" class on the line #22 of the images/date-bookmarl.svg file:

```
21  <g>
22    <path class="date-bookmark" fill='#858d63'
        d="M57.951,50.999c-94.281,0-6.51,0-55.6,0C0.799,50.999,
        0,53.005,0,53.005v-51C0,2.005,0.848,0,2.495,0

23
        c50.5,0-38.253,0,55.541,0c0.295,0,8.305,25.744,8.305,

HTML & CSS SITE TEMPLATE v1.1

JS

The JavaScripts folder is "js". Inside it, Angelo have a folder called "libs" wich includes all the libs and plugins.

To configure all the plugins, Angelo use the "plugins.js" file. For custom scripts Angelo use the "script.js" file.

NOTE: There are still some js files not noted above. I did not include them because you don't have to modify them. The "plugins.js" and "script.js" are enough to make the changes you need.
